Introduction

If you've ever stared at your phone wondering...

"What do I even say first?"

You're not alone.

I've spoken to many women who created beautiful profiles, matched with amazing men, and then lost the opportunity because they didn't know how to start the conversation.

Some said only "Hi."

Others overthought every word until days passed.

And many never sent a message at all.

The truth is, your first message doesn't have to be perfect.

It simply needs to feel warm, natural, and easy to reply to.

This guide gives you fifty ready-to-use opening messages that help you start conversations confidently while still sounding like yourself.

Remember, these messages are conversation starters—not scripts. Adjust them to fit your personality and the person's profile.

Let's get started.

Before You Send Your First Message

Five simple rules

- ✓ **Read his profile first.**
- ✓ **Mention something specific.**
- ✓ **Keep it short.**
- ✓ **Avoid asking five questions at once.**
- ✓ **Don't force chemistry.**

Move to a voice or video call only when you both feel comfortable.

Remember: the goal isn't to impress everyone. It's to connect with the right person.
